

Luis Alejandro Cerón Muñoz

Full-Stack Software Engineer

📍 Pasto, Nariño, Colombia (open to relocation) ✉️ luiscerontrabajos@gmail.com ☎️ 314 4087963

🌐 [luis-ceronmunoz](#) 🔄 [LuisCeron0](#)

Professional Profile

Full-Stack Software Engineer with experience building scalable web applications (React, Vue, Spring Boot, Django), integrating security protocols (RBAC, JWT), and deploying to the cloud (AWS, Docker). Graduate of Universidad Cooperativa de Colombia, currently pursuing a postgraduate specialization in Information Security at Politécnico Grancolombiano. Bilingual (English C1), open to relocation.

Experience

- | | |
|--|---|
| <p>Alcaldía de Pasto (City Government), Full-Stack Software Engineering Intern</p> <ul style="list-style-type: none"> Built a full-stack maintenance-management system for a public-sector entity, covering both the user interface and secure backend logic. Implemented Role-Based Access Control (RBAC) and input sanitization to prevent SQL injection and XSS attacks. Optimized database queries and backend architecture to improve system response times. | <p>Pasto, Colombia
Oct 2025 – Dec 2025
3 months</p> |
| <p>ElevaForge, Co-Founder & Software Engineer</p> <ul style="list-style-type: none"> Co-founded a 3-engineer software studio building elevaforge.com and its KOA demo vertical (landing + e-commerce), enforcing a CI security baseline across every deploy: CodeQL, custom Semgrep rules, audit-ci, and Lighthouse CI gates. Owned architecture decisions across the Angular-to-Next.js 14 migration, documented via versioned ADRs. | <p>Remote
June 2025 – present
1 year 3 months</p> |
| <p>Freelance, Full-Stack Software Developer</p> <ul style="list-style-type: none"> Carried out part-time, in parallel with university studies and, later, the internship at Alcaldía de Pasto. Executed data migrations to SAP and Oracle NetSuite, applying encryption and data backup practices. Implemented custom CRM solutions (Salesforce, HubSpot) for e-commerce businesses, including access-control configuration. Built automated reporting systems with Odoo, Python, and PostgreSQL, generating periodic reports for business analysis. This independent work laid the product discipline I later formalized by co-founding ElevaForge in mid-2025. | <p>Remote
Mar 2023 – present
3 years 6 months</p> |

Education

- | | |
|---|--|
| <p>BEng Universidad Cooperativa de Colombia, Software Engineering</p> <ul style="list-style-type: none"> Capstone project: REST API for physical space management using AI, with JWT authentication and secure secrets management. Relevant coursework: Scalable Systems Architecture, Back-End Development, Agile Methodologies (Scrum), Cybersecurity, Network Security. | <p>Pasto, Colombia
Feb 2022 – Dec 2025</p> |
|---|--|

Post-graduate Specialization **Politécnico Grancolombiano**, Information Security

- In progress, expected completion: 2027.

Colombia
Jan 2026 – present

Certifications

Cybersecurity, MinTIC Colombia (Sept 2024)
Network Security, Cisco (Dec 2024)
Agile Software Development and Scrum, IBM (Jan 2025)
Building Scalable Systems, IBM (Feb 2025)
Introduction to Back-End Development, Meta (Feb 2025)
AI and Productivity Certifications, Microsoft & LinkedIn (Feb 2025)

Skills

Development: React, Vue.js, Angular, Spring Boot, Django, JavaScript, TypeScript, Java, Python, C#
Security & DevOps: RBAC, JWT, Secure Coding Practices, Docker, AWS (EC2, S3), CI/CD, Network Security
Databases: PostgreSQL, MySQL, MongoDB
Languages: Spanish (Native), English (Advanced C1, EF SET Certified)
